9/20/68 Lou, for your files. I sent you earlier exchange. Jim, unsolicitedly, said he'd have a quarter-page ad placed in the papers when this story broke. As you know, he has done nothing of the sort. I will be hearing further, I presume. I'll keep sending you copies because at the least I will establish a record with Healy...An important man once close to JFK took the manuscript of COUP D'ETAT off with him for a weekend. He has just written (after reading the earlier books) that "it is quite a remarkable paper". I expect him to do nothing.
